

## Carrier IOT (inter-operability testing)

# Air Protocol, Data Protocol

We support all test items of the IOT from 'signaling test' to 'application test'.

We have achievements for some protocols. For example 'LTE', 'UMTS', 'C2K', 'EVDO', 'GSM' and 'WiMAX'.

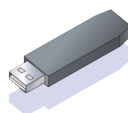

### Carrier IOT Support work

**Feature phone**

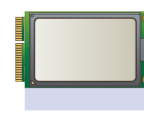

**Android**

**USB dongle**

**Mobile router**

**Module**
